

Moms Like Me.

I'm an average mother raising two children in Ridgefield.

We are looking at college for Gracie, who is a senior at Ridgefield High School. I worry not only about how we will afford college, but also about her post-graduation job and home. I hope that they will be here, in Connecticut.

Representing you in Hartford, I will work to find solutions that reduce the burden of student debt and encourage innovative businesses to locate here – so that my kids and yours can live and work in their home state.
